**Belzona, Inc. Houston Distributor Aids Those Affected by Hurricane Ike**

Miami, FL – (October 1, 2008) Belzona, Inc., in the forefront of providing repair and maintenance solutions to industrial equipment, buildings, and structures worldwide through its coatings and repair composites, is pleased to announce that its Distributor in Houston, Texas is reaching out to the local community by relieving the structural damage impact suffered by local businesses due to Hurricane Ike. In lieu of this, Belzona Houston is offering a 40% discount throughout the month of October on Belzona® 3111 (Flexible Membrane) - a single component material ideal for the repair of skylights, roof penetrations, gutters, parapet walls, or as a total roof coating which can be applied onto any type of roof surface (metal, tar and gravel, concrete, rubber) by brush, roller, or spray.

Newly appointed Distributor of Belzona Houston, Brian Burgess, commented, “This was an initial move on our part as new management for Belzona Houston, a mindset which previously worked well for us as the former Distributor of Belzona River States in the North Alabama area - to reach out to our local community in a ‘Distributor helping neighbors’ program. Our aim is to promote our services and expertise in order to provide sound solutions to local businesses affected by Hurricane Ike in repairing their roofs and expansion joints properly.”

Belzona Houston, Inc. is located 363 E. Nasa Road 1 Webster, TX, 77598. For more information on the products and services provided by Belzona Houston, authorized Belzona Distributor, to help in solving the problems left behind by Hurricane Ike please contact Brian Burgess at [belzonahouston@pdq.net](mailto:belzonahouston@pdq.net) or (281) 488-8345.

**About Belzona, Inc.**

As the manufacturer of industrial protective coatings and repair composites since 1952, Belzona provides a wide variety of solutions to rebuild, repair and maintain machinery, equipment and building structures. Belzona’s local on-site Technical Consultants analyze the situation, recommend the solution, and supervise the application. With their Global Distribution Network covering over 120 countries and 24-hour Technical Support, Belzona is established in the forefront of industry by serving such markets as oil and gas, power, marine, and water/wastewater.
